Join Wilbert Alix,
Director of The Natale Institute-
International, to experience
this innovative ritual workshop...
TRANCEDANCE - VISION QUEST.

TranceDance
Entering Your Body/Mind Consciousness

Trance dancing is an ancient Shamanic practice used by indigenous people worldwide as a ritual for the purpose of spiritual connection. Dance, in times past, was the most prolific way in which we connected with the spiritual. It is cross cultural and existed in many societies on every continent on the planet. All people danced.

Learn this form of moving meditation where your mind clears and spirit moves you. The doorway to this deep meditation is through natural mind exploring techniques such as breathing, movement, rhythm and sound.

TranceDance/Vision Quest
Ritual Workshop

Shamanic cultures experience their entire body as a thinking organism. "Intelligence" involves the body as well as the mind. When you activate the body & mind simultaneously, you "journey" to parallel realities where solutions to seemingly unsolvable problems are possible. These "vision quests" are legendary... and become the basis for acquiring individual and cultural wisdom.

All TranceDance / Vision Quest participants will learn about the science, psychology & mysticism of these "vision quests"... and explore these realities first hand. You will be able to "envision" alternative solutions to whatever life questions you ask. You will find relief to your life challenges by "envisioning" alternative solutions through movement in trance. The answers received from these visionary journeys are frequently some of the most powerful experiences in a person's life.

Wilbert Alix is the director of the Natale Institute International, the creators of TranceDance healing techniques and music. Alix is a prominent figure in the emerging science of body centered psychology. His presentations are accentuated by his intellectual depth and unique insights into the relationship between matter and mind. Alix has gained international recognition as a healer and teacher of neo-shamanic studies.
