## **TranceDance / Vision Quest Workshop Friday June 17 - Sun June 19, 2005**

The TranceDance / Vision Quest Workshop employs a variety of contemporary mind altering techniques as methods for accessing levels of shamanic "trance". All TranceDance / Vision Quest Workshop participants will first receive valuable information regarding the science, psychology & mysticism of these altered states of mind... and then explore these realities first hand. As a result each participant will be able to "envision" alternative solutions to whatever life questions they ask. The answers received from these visionary journeys are frequently some of the most powerful experiences in a person's life.
